FINANCIAL NEWS AND COMMENT

Another Display of Firmness in Stocks on Moderate Dealings.

RESPONDING TO MONEY

Influences of Crop Damage and Adverse Politics Not So Effective.

Attention in the financial district continued at the beginning of the new week to be fastened chiefly on the im-provement which has been effected in the money market as a result of the liquidations of the year and the reaction set up in some lines of trade and industry, both being operated on by the present Treasury policy of making large tem-porary releases of Government funds. Similar betterment in the money market abroad, variously caused, has contributed to a less disturbing financial outlook for the autumn, and this prospect more than any other influence has a tendency to dominate values at the moment. Whether or not monetary conditions have been more than superficially changed in the direction of ease remains to be determined by the events of the fall, when normal and abnormal tests will throw more light on the intrinsic state of credit and cap-ital supplies. Just now, however, the more cheerful aspect of money is apparently the uppermost factor in the financial markets despite portents of politics and the depressing vicissitudes of the crops.

the depressing vicissitudes of the crops.

This being so, it is not surprising to find that the stock market seems to recover rather easily when driven down as was the case last week. The liquidation of stocks in the last year has discounted a good deal in expected and unexpected categories and probably current quotations allow for even more user coulting than has actually recovered them has actually rent quotations allow for even more ag-ricultural impairment than has actually taken place. The same is probably true of the relation of quotations to immediate political omens, although in respect to marketwise factors of all sorts no very long range views can now be safely expressed. The failure of rain to fall in expressed. The failure of rain to fall in any quantity over Sunday in the drought-stricken portions of the country did not seem to weigh upon quoted values in anything like last Friday's fashion, when the crop scare, which was being exploited for speculative purposes in the grain markets, was used to accelerate the pace of reaction in Wall Street. Nor did the sustained firmness of grains yesterday prevent stocks from regaining ground lost in the last half of last week. Perhaps the damage which has been done in large farming sections will have to be taken more into account later, as to be taken more into account later, as will reckoning have to be made of the dis-turbing political attitudes at Washington toward banking legislation and tariff revision with more experiments in the

to the better situation in money.

This was indicated anew by the scarcity of stocks when short sellers sought to retire their contracts and by the ex-tent of advance induced in prices by mod-erate amounts of buying. The action of the market suggested that much specula-tive pressure came in last week after realizing sales of long stock were appar-ent, and that there had been ready willent, and that there had been ready willingness to absorb offerings at the declines
which operations for the fall brought
about. Purchases were reported for foreign account and rising strength was exhibited in miscellaneous descriptions, including standard dividend paying rails
and industrials. Some special notice was
attracted by the upward movement of the
copper and electrical equipment issues copper and electrical equipment issues because of the connection which might exist and because of the sustained firmness of the copper metal market, which was mildly emphasized by the further decrease in the foreign visible supplies of copper. The improved tene of the investment market was conspicuously illustrated by the strength of New York city bonds, the new 41/2s selling at a record high price.

An item of news which drew favorable

field of corporate enterprise to come later on, but for the time being the liquidated position of securities facilitates response

notice was the statement of domestic exports for last month, showing an increase of \$14,747,201 over the shipments in July of \$14,747,201 over the shipments in July last year. The gain was again chiefly accounted for by the heavy exports of wheat, which were about eighteen times those of a year ago. The money market could be described as still displaying a relaxing trend, with four months loans made at 5 per cent., down \(\frac{1}{2} \) of 1 per cent. from the asking price last Friday. Foreign exchange was heavy and dull.

GAS COMPANY ASSIGNS.

William McAdoe and William Loeb

Were Formerly Officers.

The United Gas Light and Manufacturing Company of 43 to 47 West Twentyfourth street has made an assignment
to Emil Coupard. Liabilities are \$94,564
and actual assets \$14,654. William J. Patterson, vice-president, signed the deed of assignment. Cameron Brown is secretary.

The company was incorporated in Delaware in April, 1910, with capital
stock of \$100,000, and bought the Cody
Light Company of Detroit.

When the company was started it was
said that Mr. McAdoo, former Police
Commissioner, was president, and Mr.
Loeb, Jr., former Collector of the Port,
was vice-president, and since then other
persons have succeeded to these offices.

The Nevada-California Power Company,
which furnishes power for Goldfield, Tonepah and other towns in the mining districts
of Nevada, has reported gross—apserating
revenue of \$490,411 for the first six menths
of 1913, as against \$408,225 for the
six months of 1913.

The Nevada-California Power Company, com 1½ Sept. 15

The Nevada-California Power Company, com 1½ Sept. 15

The Nevada-California Power Company, company and the furnishes power for Goldfield, Tonopan and other towns in the mining districts of Nevada, has reported gross-apprating the lines. J. F. Strickland peah and other towns in the mining districts of Nevada, has reported gross-apprating revenue of \$490.411 for the first six months of 1913, as against \$408.226 for the six months ended June 30, 1912. There was but little change in the revenue of the company from lightling and miscellaneous contracts and nearly the entire increase came from the carnings of the power contracts.

The Lincoln Traction Company reports for the year ended June 30, 1912, a net income of \$124.834, as against \$25.235 for the preceding twelve months. The surplus after charges was \$25,105, as against a deficit of \$12.554 during the preceding year.

AMERICANS FEATURE

Yesterday's money market was practically unchanged from its closing last week. Lenders offered funds very conservatively. Business was quiet and the tone steady. Increased buying is taking place in the commercial paper market by interior banks. A currency transfer of \$100,000 was made through the Sub-Treasury to Chicago.

Call money on the floor of the Stock Exchange ruled 2% per cent. the highest being 2% per cent, and the lowest 2 per cent.

Call money on the floor of the Stock Exchange ruled 2½ per cent. the highest being 2½ per cent. and the lowest 2 per cent.

Time money was quiet and unchanged. Rates were 3½ 64 per cent. for sixty days. 5 per cent. for four months. 5½ 65½ per cent. for floor months. Commercial paper was unchanged. Rates were 5½ 65 per cent. for sixty days and ninety days bills receivable. 6½ 65½ per cent. for others.

"Middlesbrough shipments for the first cight days of August, 1913, amount to 13,238 tons, against 19,147 tons for the same period last year.

"The stocks in Middlesbrough show a decrease of 2,025 tons and 485 tons in Cumberland hematite.

Cumberland hematite.
"At a meeting of the steel makers held yesterday prices for home delivery were reduced by 10s, a ton, making the f7 17s, 6d, a ton, less 5 per cent. for sh plates: f8 7s. 6d. a ton, less 5 per cent, for sup-plates: f8 7s. 6d. a ton, less 5 per cent, for land boiler plates: f8 12s. 6d. a ton, less 5 per cent, for marine boiler plates: f7 10s. a ton, less 5 per cent, for ship angles.

"It is hardly thought this reduction will

be sufficient to bring out very mu-business, but some of the makers are d cidedly short of specifications and a boning for some buying for prompt d loping for some buying for prompt de-livery on the part of consumers, who have been lying off for a long time now. It is reported that two members of the Steel Makers Association have given notice of their wish to retire.

"A rather better feeling has mani-fested itself in the iron and steel trade through the improvement in the inter-national situation."
